

# Alpha Epsilon Delta

The Pre-Health Honor Society at the

## Fall 2020 Safety Guidelines

As a Pre-Health Honor Society, we are committed to finding new and creative ways to participate in our usual community service opportunities, philanthropy, and student community.

In order to make our events safe and accessible to our members and electees:

- General Body Meetings, Electee Interviews, Professional Speaker Events, and most community service events will take place in an online format.
- Our point requirements and member/electee dues have been adjusted based on the number of virtual events offered this semester.
- For in-person events,
  - The events will take place in an outdoor setting with a small group of attendees
  - Masks must be worn at all times, on or off campus
  - Physical distance of 8-12 feet must be maintained between each person at all times, on or off campus
  - Most events will have a hybrid component so that members/electees can choose to participate individually or virtually
  - Safety guidelines will be enforced by the directors at the event. Failure to comply with safety guidelines will result in a strike, which will prohibit a member/electee from attending in-person events for the remainder of the semester.
